### **Tim Ambrose - Photography**

Photography is a personal experience for Tim. For more than 40 years, the art of photography has allowed him to capture the way he looks at the world and share that perspective with others. The camera serves as a tool to allow Tim to share the subject, light, vantage point, perspective and sometimes the same feeling that caused him to stop for a moment to capture an image that will never be created again. He is constantly working to see the environment from a different perspective. Tim says he is pleased and quite honored when others take some pleasure in seeing the world through his eyes.
